

To: Judge Martin Glen  
From: Mr. Perry D Holloman (Celsius Creditor)  
Case # 22-10964

Dear Judge Glenn,

I am a Celsius creditor with a large claim (after the bankruptcy judgement \$290,000). I have been put in the "convenience class" although I did not check that box and am being offered a small fraction of what I am owed. Stretto and their representatives are not responding to my e-mails requesting to see my ballot. I am asking that you provide those of us in my situation relief and demand Kirkland and Ellis to make these ballots available to us. I also never received any kind of communication that I may have erroneously filled out a part of the ballot that put me in "convenience class" which I know I did not do. Please see the documents below included in this PDF. The first two show that I am being offered .045 BTC and .67 ETH when Celsius held 12.5 BTC and 21 ETH at its bankruptcy (3<sup>rd</sup> file below).

Please help by looking into this matter and seeing what can be done. My retirement depends on it.

Respectfully,

Perry D Holloman
